Do Now Quiz: Answer in the space provided

Name:

Given the reciprocal function $f(x) = \frac{1}{x}$

- 1. Sketch f on the axes below.
- 2. Find the inverse of the function, $f^{-1}(x)$
- 3. The function g(x) is f translated three units to the right. Write down g.
- 4. Write down the equations of the asymptotes of g
- 5. Find the inverse of g, $g^{-1}(x)$

6. Find h(x), g(x) translated up two
