2-2CW-Law-of-sines-cosines2

1. Express each value as a decimal, first writing the whole calculator display, and then the 3 sig-fig approximation.   [4 marks]

   (a) $\dfrac{2\pi}{3}$

   (b) $\dfrac{\sqrt{3}}{2}$

2. Find the area of triangle ABC, with $AB = 15$, $AC = 17$, $m\angle A = 52°$.

   Hint: To use the area formula $A = \frac{1}{2}bh$ first find the altitude using sine and the hypotenuse $AC = 17$.

3. Express each value as a decimal, rounding to 3 sig-figs if necessary.   [3 marks]

   (a) 4.561×10^4

   (b) 1.90×10^{-3}

4. $\triangle ABC$ is shown with $m\angle C = 90°$ and the lengths of the triangle's sides are $BC = 8$, $AC = 6$, and $AB = 10$.

   (a) Write down the value of $\sin A$. [1 mark]

   (b) Find the measure of $\angle A$. [2 marks]

5. In right triangle ABC, hypotenuse $\overline{AB}$ has a length of 26 cm, and side $\overline{BC}$ has a length of 17.6 cm. What is the measure of angle B?

6. Solve the given triangle (determine the values of all lengths and angles)

BECA / Dr. Huson / Geometry 02-Trig+3D   Name:

7. The following diagram shows triangle ABC (not drawn to scale).

$BC = 11$, $C\hat{A}B = 50°$, and $A\hat{B}C = 43°$

(a) Find AC.   [3 marks]
(b) Find the area of triangle ABC.   [3 marks]

8. The following diagram shows quadrilateral $ABCD$ (not drawn to scale).

$AB = 8.0$, $BC = 5.1$, $CD = 4.2$, $AD = 8.3$, and $B\hat{C}D = 78°$

(a) Find BD.   [3 marks]
(b) Find $A\hat{B}D$.   [3 marks]

9. BMI is a measure of a healthy personal weight,

$$BMI = \frac{w}{h^2}$$

where
w is a person's weight in kilograms, and
h is height in meters

(a) Given a height of 160 cm and weight of 54 kg, find the BMI   [3 marks]

(b) These measurements are not exact. Assuming the height is between 159-161 cm and weight 53-55 kg, find the bounds of the BMI.   [4 marks]

10. Triangle ABC has an area of 25, with $AB = 7$ and $AC = 8$.

(a) Find the two possible measures for $\hat{A}$.   [4 marks]

(b) Given that $\hat{A}$ is obtuse, find BC.   [3 marks]

11. Find the slant height of a pyramid with square base 4 meters on a side and height of 4 m.   [3 marks]
